Alexsys Solutions Returns to Gitex Africa 2025 to Showcase Cutting-Edge AI and Digital Transformation Innovations

Casablanca, Morocco – Alexsys Solutions, a leading provider of AI-driven automation, enterprise software, and digital transformation solutions, is proud to announce its participation in Gitex Africa 2025. Building on the success of the previous edition, the company is set to unveil groundbreaking innovations across Cloud, Infrastructure & Security, Data & AI, Specific Development, and Smart City & IoT.

“This year, we are thrilled to return to Gitex Africa with an even stronger portfolio of innovative solutions that redefine how businesses and cities operate,” said **Abdellatif TARHINE, Founder CEO at Alexsys Solutions**. “Our participation underscores our dedication to empowering enterprises with AI, automation, and cutting-edge digital solutions that address today’s challenges and unlock new growth opportunities. We are proud to collaborate with both public and private companies to drive impactful digital transformation.”

At Gitex Africa 2025, Alexsys Solutions will showcase its flagship SaaS solutions, including:

- **EDUC-Ai:** An advanced e-learning platform transforming education through AI-driven personalization and smart content delivery.
- **WACOMOS:** AI-powered waste optimization solutions for sustainable urban development.
- **EVALYS:** A powerful evaluation and performance management system designed to optimize business processes and decision-making.
- **GMAOpal:** Our next-generation maintenance management solution empowers businesses with intelligent asset management and predictive maintenance, ensuring operational efficiency and cost optimization.
- **GeoSmart:** Leverages advanced geospatial intelligence to provide real-time data analysis and location-based insights, optimizing decision-making for urban planning, infrastructure, and business operations.

In addition, Alexsys Solutions will host live demonstrations, expert-led discussions, and networking opportunities to engage with industry professionals and decision-makers.

Join Alexsys Solutions at Gitex Africa 2025 in Marrakech, Cloud-AI-IoT Section , Stand 4D-35 and discover how AI and digital transformation are shaping the future of business and smart living.
